Baptist Health Lexington Hospitalist Rotation

Location: 1740 Nicholasville Road

The purpose of this rotation is to provide the resident an opportunity to experience patient volumes approaching those typically encountered in a community-based tertiary care center as well as exposure to a wide variety of diagnoses to supplement their training. The resident will also observe and participate in tasks such as receiving and distributing ED admissions and outside transfers to exercise the higher-level executive functioning required to be an efficient hospitalist.

Team Structure

The resident will be paired with one attending physician for rounding/admitting and on select days will be doing admissions only.

Preceptor Contacts

- Hannah Brown, Director of Hospital Medicine: 859-227-7646, Hannah.brown2@bhsi.com
- Emma Scott
- Courtney Edgar-Zarate
- Daniel Shields
- Wycliffe Opii
- Walker Sloan
- Muhammad Bhinder
- Sarah Hunter
- Bryce Gay

Logistics

- The rotation will begin on the 4th of the month and end on the 3rd of the following month (Exception: January rotations will begin on the 2nd)
- The hours will be Monday-Friday from 7am-5pm
- The resident can text or call their assigned attending to coordinate meeting times and places (Dr. Brown will share contact info)
- Parking in South Garage
- Facility map attached with hospitalist offices and administrative office marked

Responsibilities

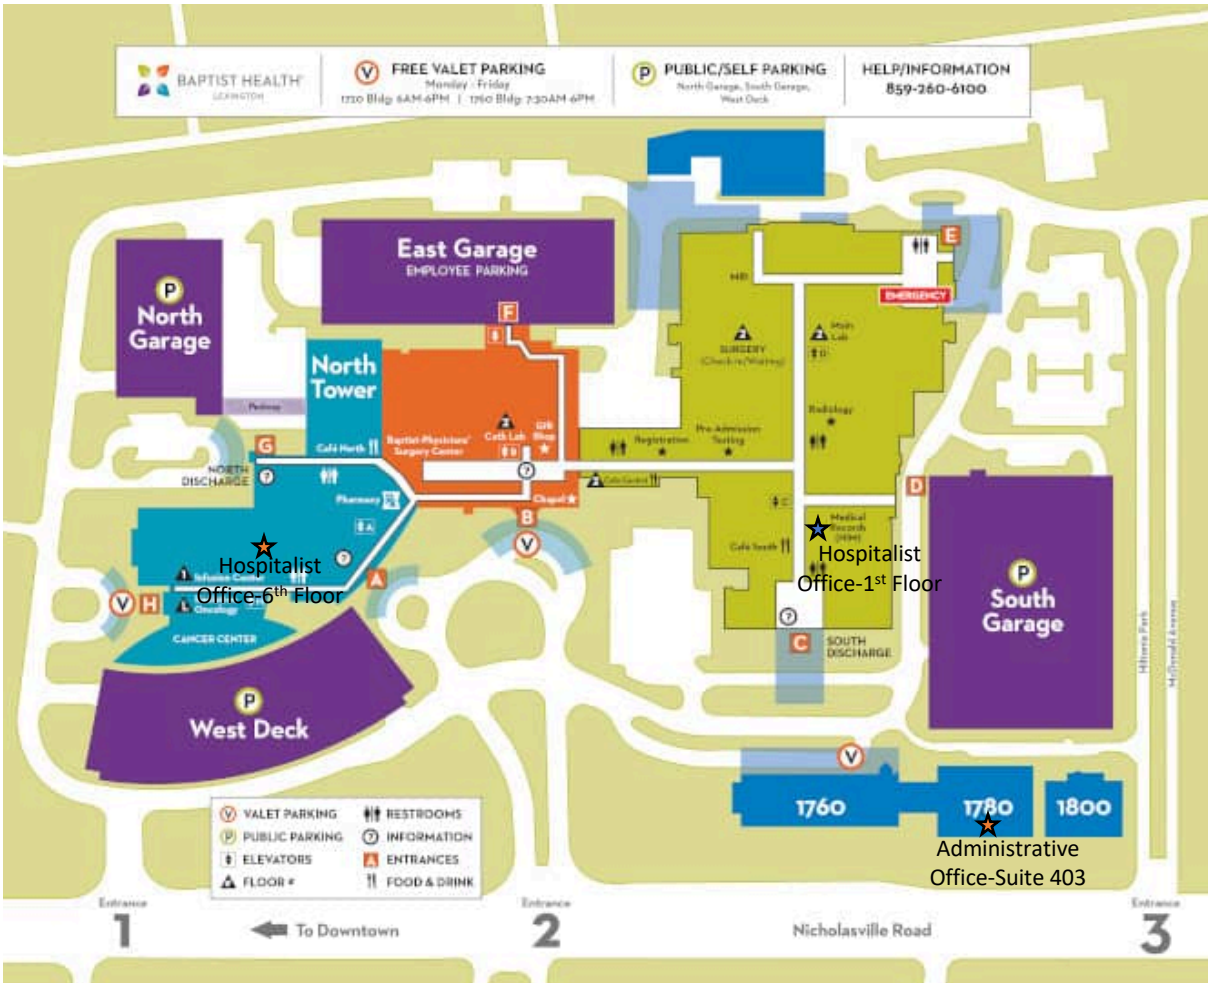

- You will be assigned 8-10 patients to round on/write notes/cross cover and additionally do 2-4 admissions daily with the exception of admission-only days where you will do a higher volume of admissions and not round on patients. This will depend on attending schedules.
- You should participate in morning multidisciplinary rounds on your floor (varies by floor so your attending will give you location/time details).
- You will be contacted directly by nurses on your patients and/or the attending physician will forward you Epic chat messages and pages on those patients and then you can discuss with the attending as needed.

- When working with the Bed Czar (physician on call during the day), they may assign you the task of distributing some of the ED admissions when you are ready and you will observe the process of outside hospital transfer requests/prioritizing the transfer of these patients and communicating with consultants.
- On the second Tuesday of the month, you will attend the group's Monthly Practice Meeting.
- At some point during the rotation, you will give a short presentation (~10 minutes) on an evidence-based medicine update, quality improvement initiative, case presentation from this month, or a clinical pearl of your choosing. Topics can be discussed with Dr. Brown during the rotation.

Schedule

Noember 2025

						1
2	3	4 Dr. Sloan 6A	5 Dr. Sloan 6A	6 Dr. Gay 6A	7 Dr. Gay 6A	8
9	10 Dr. Scott 3E	11 Dr. Scott 3E	12 Dr. Scott 3E	13 Dr. Hunter 3E	14 Dr. Hunter 3E	15
